

Homework 11: Hadoop Ecosystem

Q1: Which of the following maps input key/value pairs to a set of intermediate key/value pairs.

- A. Mapper
- B. Reducer
- C. Both A and B

Q2: What is the correct sequence of data flow in MapReduce?

- a. InputFormat
 - b. Mapper
 - c. Combiner
 - d. Reducer
 - e. Partitioner
 - f. OutputFormat
-
- A. abcdfe
 - B. abcedf
 - C. acdefb
 - D. abcdef

Q3: The total number of partitioners is equal to

- A. The number of reducers
- B. The number of mappers
- C. The number of combiners
- D. All of the above
